# 科目概要情報／Course description

Students study how the English language is used in different texts in different contexts and media. They also learn how to read and critically analyze a range of literary texts. They also learn how to write different types of essays and creative pieces as well as create and present different pieces orally.

## 目標/Goals

A key aim of the language A: language and literature course is to encourage students to question the meaning generated by language and texts, which, it can be argued, is rarely straightforward and unambiguous. Helping students to focus closely on the language of the texts they study and to become aware of the role of each text’s wider context in shaping its meaning is central to the course.
